Quick-Lift Arm Torque
QLAT 350s

Intelligent lifting device which meets the highest standards of ergonomics, working environment, safety and efficiency.

Provides possibility to effortlessly handle eccentric loads.

Easy to use, thanks to outstanding responsiveness, regardless of load weight.

Exceptional safety is achieved using our intelligent control systems.

High cost efficiency through high reliability, increased productivity and long durability.
**Quick-Lift Arm Torque QLAT 350S**

**TECHNICAL DATA QLAT 350S**

- **Lifting capacity**: Max 125 kg and 350 Nm
- **Lift motor**: Stepless servo-controlled asynchronous motor
- **Manoeuvring**: manoeuvring is done with Binar Handling’s patented control handle. Only a small force is needed to engage the up/down motion. When the operator let go of the handle, the up/down motion is immediately stopped.
- **Power supply**: 230V, 50-60 Hz, 1-phase with ground protection, 10A
- **Stroke length**: 2.7 meter
- **Hinged arm**: Made in painted aluminum profiles, and vertical profile in anodized aluminum.
- **Attachment**: Floor pillar in painted steel with standard height of 3 m. Optional pillar height up to 5 m depending on customers need.
- **End Effector**: End effectors are designed to fit customers need. Intelligent I/O signals are available for optimum functionality.
- **Option**: Color on Arm and Motor unit, that deviates from the standard
